Hull identification Number (HIN) notes	
The modern HIN is a 12-digit code. Many Corbins were stamped as 8 or 9 digits, and often the Z was substituted by 2. Damage has occurred to many in use. Obvious errors are corrected and they are displayed in 12-digit format. See https://www.boatsafe.com/hull-id-numbers/ .	

Type Key	
PH	Pilothouse with aft cockpit

K	Ketch Rigged
C-K	Ketch Rigged Cutter (i.e. genoa & staysail)
S	Sloop Rigged (genoa only)
SR	Solent rig (twin genoas on twin forestays)

Corbin 39 Summary Listing

This is the best information we have been able to put together from all the public sources available on the internet. It is a collective team effort over many years. Note : not all Corbin Les Bateaux, Inc are Corbin 39.

There are many gaps in the data, and quite a few contradictions and discrepancies. If you are able to assist with solving any more of the puzzle please contact us. Determining the full Hull Identification Number (HIN) moulded on the stern, or knowing just the moulded hull sequence number are the best keys to the puzzle, but every scrap of data helps. Some HINs were badly stamped, or have become damaged. Not all are Corbin 39.

Ultimately all owners benefit as it increases the value of their boats. Know your HIN ! Plus it is a fun puzzle.

Hull identification Number (HIN) notes	
The modern HIN is a 12-digit code. Many Corbins were stamped as 8 or 9 digits, and often the Z was substituted by 2. Damage has occurred to many in use. Obvious errors are corrected and they are displayed in 12-digit format. See https://www.boatsafe.com/hull-id-numbers/ .

S	Sloop Rigged (genoa only)
SR	Solent rig (twin genoas on twin forestays)

Corbin 39 Summary Listing

This is the best information we have been able to put together from all the public sources available on the internet. It is a collective team effort over many years. Note : not all Corbin Les Bateaux, Inc are Corbin 39.

There are many gaps in the data, and quite a few contradictions and discrepancies. If you are able to assist with solving any more of the puzzle please contact us. Determining the full Hull Identification Number (HIN) moulded on the stern, or knowing just the moulded hull sequence number are the best keys to the puzzle, but every scrap of data helps. Some HINs were badly stamped, or have become damaged. Not all are Corbin 39.

Ultimately all owners benefit as it increases the value of their boats. Know your HIN ! Plus it is a fun puzzle.

ZCJ 000201 0791	Philosophe (L'Aventure III)	201	CC-C	1991-07	1992		maybe the last boat built in 1991 by Corbins former employee Gilles Grimard	CAN 814868	Patrick Loisel & Marie José Durand (9218-2401 QUEBEC INC) (Luc & Richard St Pierre)

Boats less positively identified and not yet allocated to the build series above. Any information that can fill in the gaps is most welcome. This effort is of value to you as an owner because it improves the boat's 'provenance' when you want to sell. It is quite possible that some, but not all of the boats identified below were never completed. Others may have been completed under a different name. Others may be Corbin fishing trawlers or similar, and not actually be Corbin 39.
